New Tenant Intake Form — Suparna Dey Platform

Welcome! We're excited to launch your restaurant on our platform. Please fill out every section below so we can build your app exactly the way you want it. Once you return this form, we'll spin up your project within 3–5 business days.

Fields marked ★ are required. Fields marked ☆ are optional but recommended.

Section A · Your business

Field	Your answer
★ **Legal business name** (as on your tax paperwork)	
☆ **Doing-business-as (DBA) name** — if different from legal	
★ **Business registration / tax ID** (HST/GST, EIN, GSTIN, etc.)	
★ **Registered business address**	
★ **Country / state / province of operation**	
★ **Primary business owner name**	
★ **Owner's email** (this becomes your admin login)	
★ **Owner's mobile phone**	
☆ **Second contact** (name / email / phone)	

Section B · Your brand

B.1 · Names & voice

Field	Your answer
★ **Public brand name** — exactly as customers should see it (e.g. "Jomidari Kitchen")	
★ **One-line tagline** — 6–10 words that describe what you do	
★ **About blurb** — 2–3 sentences for the "About" screen	
☆ **Cuisine keywords** — comma-separated (e.g. "Bengali, home-style, vegetarian")	

B.2 · Colors (optional — we auto-pick from your logo)

You don't need to know what a hex code is. **By default we extract your palette directly from your logo** — the dominant color becomes your primary brand color, a darker shade is used for pressed buttons, and a complementary tone becomes the accent.

Only fill this section in if you want to override that automatic choice.

Field (optional)	Your answer
☆ Primary color — hex or plain-English description ("warm terracotta", "deep green")	
☆ Accent color — hex or plain-English description	
☆ Any brand colors you specifically want to **avoid**	
☆ Existing brand guidelines PDF — attach if you have one	

> **If you're unsure, just leave this blank.** We'll pick a palette that matches your logo and show you a preview before we ship the app. You can always tell us "make it warmer / cooler / darker" and we'll re-tune it in minutes.

B.3 · Logo & imagery

Please attach the following files with your reply. If you only have one logo file, we'll adapt it — but the more sizes you send, the better it will look on every device.

File	Format	Ideal dimensions	Attached?
★ **Full logo** (horizontal or stacked)	PNG w/ transparent bg	~800 × 240	□
★ **Square logo / mark**	PNG w/ transparent bg	1024 × 1024	□
☆ **Splash screen artwork**	PNG (solid bg is fine)	1284 × 2778	□
☆ **Notification icon** (single-color silhouette)	PNG w/ transparent bg	96 × 96	□
☆ **Any additional lifestyle / food photography**	JPG/PNG, high-res	—	□

B.4 · Voice & policies

Field	Your answer
★ **Support email** — customers write here for help	
★ **Support phone** — appears in the app's footer	
★ **Support hours** (e.g. "Mon–Sat, 10 am – 10 pm ET")	
☆ **Website URL**	
☆ **Privacy policy URL** (we can host a default if you don't have one)	
☆ **Terms of service URL** (we can host a default if you don't have one)	

Section C · How you operate

C.1 · Region

Field	Your answer
★ **Currency** (CAD / USD / GBP / INR / EUR / other)	
★ **Currency symbol** ($ / £ / ₹ / €)	
★ **Timezone** (e.g. "America/Toronto", "Asia/Kolkata")	
★ **Default city / metro**	
★ **Service area description** (e.g. "Greater Toronto Area")	

C.2 · Ordering & delivery

Field	Your answer
★ **Days of the week you accept orders** (e.g. Mon–Fri)	
★ **Days you deliver / dispatch** (e.g. Sat & Sun)	
★ **Order cut-off time** (e.g. "Wed 8 pm for weekend delivery")	
★ **Default delivery fee** — in cents (e.g. 599 = $5.99)	
☆ **Free-delivery threshold** — in cents, or "N/A"	
★ **Minimum order value** — in cents	
★ **Sales tax rate** in % (or "N/A" if inclusive)	
☆ **Tax name to display** ("HST", "GST", "Sales tax")	

C.3 · Payment methods you want to accept

Tick all that apply.

- □ **Cash on delivery (COD)** — enabled by default
- □ **Interac e-Transfer** (Canada) — enabled by default
- □ **Credit / debit card** (Stripe) — will be enabled in Phase 3

- □ **PayPal** — Phase 4 roadmap
- □ **Cryptocurrency** — special request

C.4 · Delivery drivers

Field	Your answer
★ **Do you have your own drivers?** (Yes / No / mix with 3rd-party)	
★ **Estimated number of drivers at launch**	
☆ **Preferred vehicle types** (car, bike, scooter, walk)	
☆ **Do drivers need multi-language support?**	

Section D · Initial menu

D.1 · How you want to add your menu

Pick one:

- □ **We already have a spreadsheet / PDF menu** — attach it and we'll do the initial data entry for you.
- □ **We'll enter it ourselves** in the Admin portal after handoff.
- □ **We're inspired by Curry & Co.'s menu and want a similar starter set** we can then customise.

D.2 · Menu categories at launch

List the categories you want on your app (e.g. "Weekly Combos, Curries, Rice & Biryani, Desserts").

#	Category name	Notes
1		
2		
3		
4		
5		

D.3 · Signature / hero items

We put your 3–5 best-selling items front-and-center on the home screen.

#	Item name	Short description	Price (in cents)	Photo attached?
1				□
2				□
3				□
4				□
5				□

Section E · App Store & Google Play (only if you want your own listing)

You can either:

- **(a) Publish under Suparna Dey's developer accounts** — free, faster, but the listing shows our company as the publisher.
- **(b) Publish under your own developer accounts** — costs $99/yr for Apple + $25 one-time for Google, but you own the listing. Recommended for restaurants that want brand ownership.

Which do you want? □ (a) Under Suparna Dey □ (b) Under our own accounts

If (b), please provide:

Field	Your answer
Apple Developer Team ID (10-char code from your account)	
Apple ID email for the developer account	
App-specific password for that Apple ID (generate one at appleid.apple.com)	
Google Play Console account email	
Play Console developer account ID	

App Store listing content (we'll draft, you approve)

Field	Your answer
App Store description — up to 4000 chars (drop your draft or "please write for us")	
Keywords — 100 chars, comma-separated	
Support URL — a public webpage where users can email you	
Marketing URL ☆ — your restaurant's website	

Reviewer credentials — required by Apple + Google

Apple and Google reviewers must be able to log into your app to approve it. We'll seed a dedicated reviewer account; please confirm the credentials we can share with the reviewers.

Field	Your answer
Reviewer email (e.g. `reviewer@<your-domain>`)	
Reviewer password (strong, 12+ chars)	
Reviewer notes — special instructions for the reviewer (e.g. "use the Continue as guest button on the login screen")	

Section F · Integrations (optional, we'll help with each)

Tick the integrations you want at launch. Each requires an account + API key from the linked provider.

- □ **Google Maps** — required for delivery address autocomplete + live driver tracking. We'll help you generate a key.
- □ **Twilio SMS** — order status texts to customers. Requires a Twilio account + a provisioned phone number.
- □ **Emergent Email (Resend)** — order receipts by email. Managed by us; no signup needed, but we may need you to verify a sending domain (SPF / DKIM DNS records).
- □ **Push notifications** — order updates on the customer's phone. Requires a Firebase project + `google-services.json`. Only works on real device builds (not Expo Go / web preview).
- □ **Google Sign-In** — one-tap customer login. Managed by us via Emergent Auth.

Section G · Launch plan

Field	Your answer
★ **Desired launch date**	
★ **Soft-launch approach** (friends & family / public / staged rollout)	
☆ **Marketing channels you'll drive traffic from** (Instagram, WhatsApp, local ads, etc.)	
☆ **Any local regulations we should know about** (food licensing, delivery permits)	

Section H · Sign-off

By returning this form, I confirm that:

- The information above is accurate.
- I have the right to use the brand name, logos, and imagery provided.
- I understand that the mobile app is subject to Apple and Google review and that a rejection cycle is normal on first submission.
- I agree to the Suparna Dey Platform's monthly subscription fee, which will begin **after** my free trial ends. I understand that unpaid subscriptions result in temporary suspension of ordering.

Section I · What happens next

Once we receive this form:

1. **Day 1** — we create your GitHub fork, Emergent project, and Super Admin tenant record. You'll receive: - A **preview URL** to test the app on a phone browser - Your **Admin login credentials** (Admin portal at `/admin`) - A short **welcome video** walking you through the Admin portal
2. **Day 2–3** — we finalise branding, add your menu, and hand you the Admin portal so you can add / edit items.
3. **Day 4** — we submit your app to TestFlight (iOS) and internal testing (Android). You install both on your phone and approve.
4. **Day 5–14** — we submit to the App Store and Play Store. Approval takes 1–7 days; we handle any rejection cycles.
5. **Launch day** — your app goes live on both stores. We stay on-call for 48 hours to catch anything unusual.

Questions? Email us at **onboarding@suparnadey.com** — reply within one business day.

Suparna Dey Platform · Confidential · Do not share this form outside your organisation.
